THE FIRST 60's CAFE

DEC 2011— JUN 2020

**Our concept* With The60slife started in December 2011. We were committed to start a new life and so we created our first dine in restaurant "The 60's Café" next to glorious Ganga here in Rishikesh. And right there, our crazy story started.*

We a team of four professional hoteliers from top hotel schools of the country came together while working at Ananda in The Himalayas, Rishikesh.

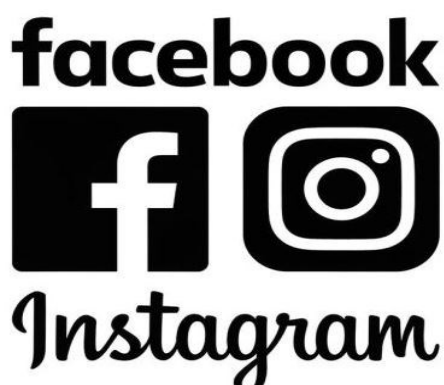

Motivated about creating lasting moments for guests, we wanted to do things a little differently. Our approach to extraordinary service is having a warm, intuitive, personal and unique 60's style of hospitality that matches the expectations of all our guests.

With all our hard work, skills and positive attitude this restaurant became popular and very soon it was named as the best eatery by Trip Advisor and Google. The 60's Café was also known as 60's Café Delmar/ Beatles Café.

But now, all those magical sunsets and positive vibes at this vibrant place is history as in 2020, the management made a difficult decision to shut its doors permanently and shift to a new location.

It's safe to say that after 8 glorious years (Just like The Beatles) this place really made its mark on the community and we are sad to see it go. We are grateful for the all good times we gained in this journey.

Get in touch and follow us on any social media page for updates and more about our crazy journey till now.
